an 9

ALL SORTS.

—Boyd, the sculler, is dead.
—FOR SALE.—A first class square
piano. Inquire at this office.

—Thirty cases of sunstroke in
New York and vicinity last Satur-
day.

—The cholera has made its ap-
pearance in Europe. Seventeen
cases and nine deaths have been
reported.

—FOR SALE.—A large roomy
residence in the Western part of
the city. Fine location. Apply at
this office.

—It is reported that H. P. Phil-
lips is lying at the point of death.
No hope being entertained for his
recovery.

—Fish Commissioner Cary says
the sawdust in the Truckee river is
slowly but surely killing the trout
in that stream.

—The White Star soap now on
sale at the grocery store of Thax-
ter & Co. is the finest washing soap
on the market.

—A fire in the dry goods district
in New York, last Saturday after-
noon, destroyed \$140,000 worth of
property and caused the death of
two men.

—The Ladies' Art and Indus-
trial Society will meet at their
rooms, on Carson street, next door
to Leslie Bell's. By order of the
President.

—Fred Gelinas, a Carson raised
boy, and for a long time employed
in the V. & T. R. R. Office, left for
San Francisco last evening where
he will permanently reside.

—Orders have been sent from
Rome to the Archbishop of New
York to excommunicate Rev. Dr.
McGlynn, and publish the decree
of excommunication in Catholic
journals.

—The town of Clarendon,
Penna., was almost wiped out
on Monday night by a fire. All
the business portion of the town
is destroyed. Loss, about half
a million.

—A was circulated the report
that the Queen would give six
guineas and a silver cradle to every
child born on jubilee day, and so
far it is said, there have been 400
applications.

—The superior facilities which
the Hofer Bros. have for supplying
the ladies with the finest fancy and
dress goods are second to none in
the State and they justly deserve
the patronage of our people.

—W. H. Barnum, Chairman of
the Democratic National Committee
was in Omaha recently and stated
in an interview that Cleveland
was strengthening the Democrat
party. "He will be re-nominated
and re-elected in '88" said Mr.
Barnum.

—The toll-road nuisance is com-
plained of. Time was, when be-
tween Carson and Bodie there were
so many toll-gates that there was
not room enough to swing them
open all at once. There are fewer
now, but those few are an imposi-
tion and a fraud that should be
abated.

—The extradition papers in the
matter of the former A. P. Clark
have been received from Secretary
of State Bayard, and Detective Je-
rome Deasey will sail on the 8th
inst. for British Columbia, and will
return to Truckee with his prisoner
about the 22nd. His examination
will take place at once, and the
matter will be vigorously prose-
cuted.

The Fourth.

Monday was a very quiet day in
Carson, most of our people going
elsewhere to spend the Fourth.
The few decorations were general,
most of the display being on Carson
Street. Cap. Avery's barbecue
was as usual a success, and his dis-
play of fireworks was well attended
in the evening. At Genoa there
was quite a gathering. The foot-
race between Pete Musgrove of
Carson and Mike Fay of Genoa,
was won easily by the former.

Another Victory.

The baseball game on Sunday
between the Amateurs and Reso-
lutes, for the benefit of the Gould
& Curry sufferers, resulted in a
victory for the former. The Reso-
lutes led for the first three innings,
when the Amateurs went to the
front and by superior batting and
fielding won with a score of 15 to 8.
The gate receipts reached a com-
fortable figure.

SILL IN SUSPENSE.

The Entombed Miners Not Yet Reached.

Yesterday all speculations rela-
tive to the fate of the entombed
miners were set at rest when it was
discovered that the air pipe had
separated on the 1400 level. The
blowers, which had been run un-
ceasingly since the fire, were stop-
ped and the men given up for
dead.

The Fourth was a gloomy one for
the Comstock, and the literary ex-
ercises at the Opera House partook
more of the nature of a memorial
service. Col. Ellis and Judge
Leonard, of this city, were much
praised for their allusions to the
miners, made in their addresses.

Work in the relief drift still
progresses, and now the drift start-
ed from the incline is running
North and South, with an Ingersoll
drill at each end. Since the miners
are dead there is no attempt at
very rapid progress, but the work
is done well with more time and
care.

Nothing can be gleaned from the
men who come up from the lower
levels, they have orders to keep
their mouths shut, and no amount
of pumping can get a word. Mr.
Patton is anxious to get the bodies
out before the public know that a
connection is made, that there be
no rush for the works. It is as-
serted that the connection has
already been made by a drill hole,
and that the connection would be
completed at night, and thus avoid
public excitement.

The story that the Best &
Belcher surveys had been incorrect
was exploded today. A careful
measurement was made and they
were found to be right, and corrob-
orating the official letters sent by
Mr. Lyman.

James Rule, the Foreman of the
Best & Belcher, thinks that the
long swelling of the Con. Virginia
ground has lifted the drift higher
than shown by the maps. The
heavily built, strong men put on to
do fast work have been supplanted
by smaller and thinner men. It is
found that the spare built men
have more endurance and are the
"stayers."

Drills are probing the ground in
all directions, and Mr. Patton
thinks that the crosout will be
reached today.

Public suspense is over and
there are no longer any plans sug-
gested to keep the men alive, but
simply to reach, and give them a
decent burial. On all sides the
conduct of Carson in giving so
large a sum to the relief fund, is
warmly praised. Comstocker's
say that it was much more than
Carson was expected to give. It is
generally conceded however that
Carson did better than any place
with her \$600 Virginia city esti-
mates that such a sum is about \$20
to the man.

Buttermilk as a Drink.

A great physician once said that
if everyone knew the value of but-
termilk as a drink it would be
more freely partaken of by persons
who drink so excessively of other
beverages, and further compared its
effects on the system to the clean-
ing out of an old cook stove that
has been clogged up with ashes
which have sifted through, filling
every crevice and crack, by saying
that the human system is like the
stove, and collects and gathers
refuse matter that can in no way
be exterminated from the system
so effectually as by drinking but-
termilk. It is also a remedy for indig-
estion, soothes and quiets the
nerves, and is very somnolent to
those who are troubled with sleep-
lessness. Its medicinal properties
cannot be overrated, and it should
be freely used by all who can get
it. Everyone who values good
health should drink buttermilk ev-
ery day in warm weather, and let
tea, coffee and water alone.

For the benefit of those who are
not already aware of it, I may add
that in the churning of it the first
process of digestion is gone through
with, making it one of the easiest
and quickest of all things to digest.
It makes gastric juice, and contains
properties that readily assimilate
with it, wear upon the digestive or-
gans.—Hall's Journal of Health.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became Miss, she clung to Castoria.
When she had Children, she gave them Castoria.

A Cross-Eyed Wedding.

At the request of the happy
couple we refrain from giving their
names. Eighteen years ago a fam-
ily came from the East and located
in a pleasant part of this State, the
eldest daughter being afflicted with
strabismus or cross eyes. The next
door neighbor had a boy similarly
disfigured. The two children, in-
stead of sympathizing with each
other in their joint affliction, be-
came bitterly antagonistic, and
each never lost an opportunity to
show the feeling rankling in their
breasts. Matters went on thus
from year to year. They grew up
to maturity. The lady hearing of
the remarkable operations being
performed in San Francisco by Dr.
Prentice, came here last week and
had her eyes straightened. The ef-
fect was marvelous, of course, and
the Doctor, being proud of his
skillful and successful operation,
ushered her into his waiting parlor
to show the waiting patients the
contrast in the girl's appearance.
Upon looking up the lady's eyes
met that of a young man, who
had come on the same errand as
herself. He proved to be her hated
neighbor. He begged her to wait a
few moments until his eyes had
been operated upon. The Doctor
soon had his optics as perfect as
nature could make them.

He was congratulated by the
young lady on his improved looks.
He himself became enthusiastic
in his comments on her appearance,
and they presently took their de-
parture. Recently the Doctor was
agreeably surprised at a visit from
the young couple, who came to ex-
tend him an invitation to their
wedding, which will shortly take
place. The transformation in their
respective looks was such that the
hitherto enmity existing had soft-
ened into love. After receiving
the congratulations of the Doctor
and his amiable wife, the happy
couple took their departure. May
they live long and happily together
and never forget the kind provid-
ence that guided their steps to the
office of the eminent physi-
cian.

During the past six months' stay
in San Francisco Dr. Prentice has
straightened nearly 700 cross eyes,
all of which were performed in less
than one minute. The operations
were so successful as to cause little
or no irritation; in fact not even a
bandage being worn by a single
patient.—San Francisco Argus.

Charged with Murder.

At a late hour Saturday night
George Wesley Bishop, who was
shot aboard the steamer Alameda
Friday afternoon, by Mrs. Mary
Von, was removed by several of
his friends to the lodging house at
the corner of Washington street
and Dunbar alley. At 3 o'clock
yesterday morning he died, and his
remains were removed to the
Morgue. Mrs. Von, when ques-
tioned Sunday night, expressed re-
gret at the death of her victim. She
claimed, however, that Bishop's
death was the result of his removal
from the Receiving Hospital. A
charge of murder was placed
against her.—Post.

Gunning for a President.

WASHINGTON July 3.—The po-
lice have taken into custody Ben-
edict Krebs, a crank who is under
the impression that the President
has defrauded him out of a vast
sum of money and who has been
threatening to kill President Cleve-
land with a shotgun when he at-
tends church. Krebs is held at the
station for medical examination of
his mental condition.

Drown-a-Water Bathing.

SACRAMENTO, July 3.—This af-
ternoon eight employees of Wein-
stock & Lubin went bathing in the
American river, opposite Mayhew's
station. Among them was Charles
Nelson, who got beyond his depth
and was drowned. The body was
not recovered. Nelson was 21 years
of age. He came here from San
Diego, where it is said his parents
reside.

—In an interview had with Hen-
ry George, he was asked:

"What are the prospects of the
new political party?"
"Our party is strong and is gain-
ing strength every day. We will
be able to show this when we hold
a State Convention in New York on
the 17th of August. Our candidate
for President? We are not think-
ing so much of which of our own
people shall be our standard-bearer
as we are of how the aims of the
party shall be attained."—Ex.

—Wizard Oil at Geo. Thaxter's.
